

NK-LP3AF

The NK models incorporate such features as a ready brew light for optimum brewing temperature, independent hot water faucet, and back-up pour in feature. We have added a branding box that offers an updated style hiding the switches from the end user, while providing a sleek cover with the option of your company's logo and artwork to capture your coffee audience. Switches are viewable with a simple flip, and giving the operator brewing instructions at a glance.

Private labeling is now offered with Newco's State of the Art Branding capabilities.

NK-LP3AF PN:705145

Shown brewing into Glass Bowls 100550, Decaf 100510

Shown with branding box open revealing instructions and switch
