

Introducing the most popular family of pour over brewers.

The AK Series offers a traditional displacement tank system.

AK SERIES BREWER MODEL AK-2AS

“Automatic Warmer Shutoff”

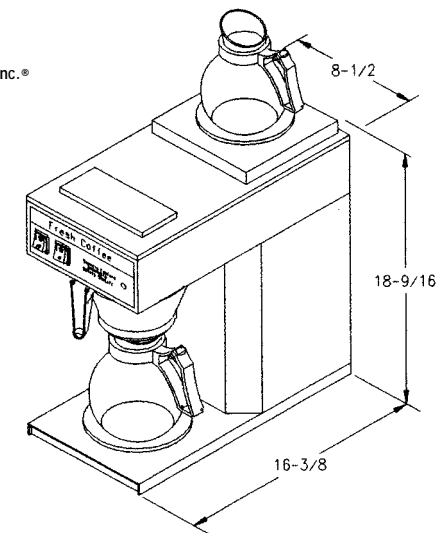

NEWCO

AK SERIES BREWER MODEL AK-2AS

The next dimension in pour over brewers.

- Auto warmer shut off feature eliminates the potential hazard of warmers being left on at the end of the day.
- Warmer shut off may be adjusted anywhere between 30 minutes and 4 hours.
- Low profile model incorporates ready light for optimum brewing temperatures.
- Durable stainless steel construction.
- Master power switch.
