# 20:1 AP-PRO COMBO

COMBO / COFFEE AND TEA

## Features

- Touch Key Button accommodates your beverage type and container style using digital controls for volume control, pulse brewing, drain time and temperature.
- Coffee, Hot tea and Iced tea.
- Power Bar signals that brewer is “On”.
- Auto-Arm, our temperature sentry: will only allow brewing to happen at the correct temperature.
- Ready Light lets you know that you’re ready to brew.
- Digital Time Display lets you know when the beverage will be done.
- Brewing Light flashes to alert the user that the brewing is in process.
- Brewer Signal alerts when beverage is ready.
- Hot Water Faucet can deliver water at any time.
- **Dual Voltage optional.**
- Under 18”
- Brews into some taller airpots and still fits under 18”.

# 20:1 PRO

Set-up on the 20:1 Brewing system is easy. Simply plug in the water supply, plug in the system's built in cord (120V), and turn the machine on. The 20:1 system will sense a dry probe and begin filling the tank automatically. Once the water in the tank has reached the proper level, the element will automatically turn on and begin heating. In minutes, the correct brewing temperature will be reached, and you're ready to brew!

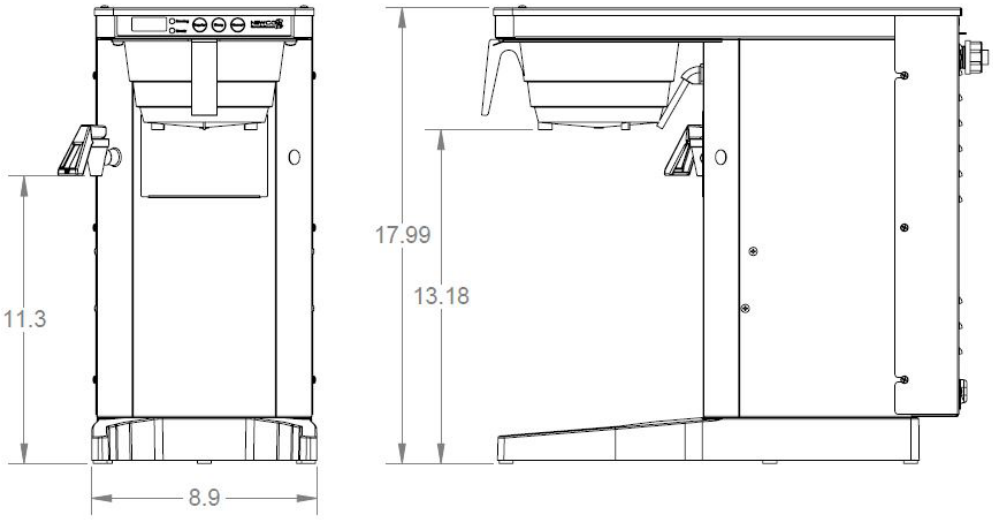
Standard Brew Basket

Optional Gourmet Funnel

Optional Drop Down Tray

Optional Dual Voltage

## Dimensions



## Additional Information

| | | US Watts/Amps | | Canadian Watts/Amps | |
|---|---|---|---|---|---|
| Part Number | Description | 120 V | 240 V (option) | 120 V (option) | 240 V (option) |
| 119730 | 20:1-AP,PRO-COMB,PFB,1750 | 1750/14.6 | 3500/14.6 | 1400/11.7 | 3500/14.6 |
| 119760 | 20:1-AP,PRO-COMB,PFB,DV | 1750/14.6 | 3150/13.1 | 1400/11.7 | 3150/13.1 |

Note: Unless specified, dual voltage units are shipped configured for connection to a 120 V electrical supply in the US market.

Manufactured in the USA
