

BISTRO-1

POWDER DISPENSER PROVIDE MORE OPTIONS

Introducing the new Bistro series powdered dispensers from Newco. The Bistro-1 allows you to deliver specialty drinks such as cappuccinos, lattes and hot chocolate to your clients while adding more profit to your bottom line. Built in a sleek, compact cabinet, the Bistro series delivers perfectly whipped products at the touch of a button. Drive more profit from your locations by adding specialty beverages that your customers want to offer to their employees.

Equipped with a single 4lb pound product hopper, the Bistro 1 is a perfect hot chocolate or powdered cappuccino solution for any office or food service location. Program up to three independent cup volumes or operate as a simple push and dispense.
