

SIGHT GAUGE AIRPOT

CREATED BY NEWCO

Approved
Patent Pending
NSF certified, tested, and approved to standard C.

Insight Airpot
2.2L Sight Gauge Airpot
#121282-NSF

Commercial grade

Proven bellows & metal lever actuator is designed to withstand rugged daily use in commercial environments. Pumps up to 11 oz of coffee with single push of lever.

Dual Tube Stem

Creates proper mixing of the coffee inside the airpot during the brewing process. By directing all of the coffee to the bottom of the airpot the coffee strength is consistent. The first and last cup taste the same.

Lid

Disassembles by hand without any tools for easy, thorough cleaning. Regular sanitation of bellows keeps your coffee pure and free from bacteria and bitter coffee build up.

Brew-Thru Stem

Allows stem to remain in airpot while brewing, preserving maximum heat retention. Stainless steel ball seals outlet port when airpot is not in use.

Level Indicator

Patent Pending level indicator visually displays volume of coffee remaining in airpot solving the most common complaint with airpots.
