

CAFE ESPRESSO 2.0

The Café Espresso 2.0 compliments any coffee program by offering coffee house quality drinks to your menu and elevating the customer experience while generating more revenue per ticket.

The Café Espresso 2.0 is small in size but big on flavor. With the innovative fresh brewing technology, this stylish unit delivers a range of high quality, rich tasting specialty drinks. Designed for the rugged commercial environment, Café Espresso 2.0 can deliver coffee house drinks throughout the day. The state-of-the-art touch screen intuitively allows users to navigate drink selections and even customize drink parameters such as strength, size and milk foam to deliver the perfect personalized drink. A large 8 liter water reservoir allows the unit to operate manually or connected to a main water supply. Cleaning of the brewing and milk system are displayed in simple visual instructions on the touch screen making the necessary cleaning processes easy to follow.

Cafe Espresso 2.0
