

OPTIONAL TOUCHLESS OPERATION INSTRUCTIONS

CX Touch QR Brewer

① Place cup on drip tray.

② Open camera app on phone and point it at QR code.

③ Click web link to access drink menu.

④ Select drink size and strength.

⑤ When "NEXT" is selected, you will receive a drink QR code.

⑥ Turn drink QR code to face machine's camera.

- Pod based drinks: Door will open immediately upon scanning the QR code. Insert your pod. Once pod is inserted, rescan QR code and the door will close and brewing commences.
- Non-pod based drinks: Machine will begin brewing non-pod based drinks immediately.
