

AKH-T-TVT

DIGITAL COMBINATION COFFEE & ICED TEA BREWER WITH DROP DOWN TRAY

Introducing the TVT series brewer from Newco. Brew perfectly delicious coffee or tea every time with Newco's advanced heating and brewing system. Newco's energy efficient instant heating system only uses fresh water with each brew cycle. Traditional tank systems heat water wasting energy and continually reducing the amount of oxygen in the water. Fresh water produces the best finished product possible.

Features

- Brew multiple volumes of Coffee or Tea with 3 independently programmable brew buttons.
- Fold down shelf for short dispensers.
- Easily program the functions of the brewer from the front of the display.
- High quality stainless steel construction for years of service.
- Back up pour in feature allows brewer to operate manually.
- Brews into 3 and 5 gallon round, 2.5 liter stainless airtop, 3.5 gallon narrow Stainless Steel dispenser, or a 3 gallon slim plastic dispenser.
- Tall model also accommodates "Sweet Brew" funnels.
- Made in the USA.
